Miracle Network
Hospitals**

Meet Savannah and Xander

Savannah has gastroparesis and Xander has a condition that makes it difficult for him to swallow.

These siblings have endured many procedures and treatments at Penn State Health Children's Hospital. During their frequent visits, Xander and Savannah rely on programs like Child Life, Music Therapy, and Art Therapy, which receive funding from Children's Miracle Network, to help them cope.

When you ASK, you give kids like Xander and Savannah the #GiftofGrowingUp. Thank you!
