

Messages of Hope Activity Instructions

The journey to stem cell transplant for patients and families can be very difficult. We invite you to create a message of hope and encouragement for patients. We will pass your note on to a patient who is going through the transplant process at a transplant center. You have the power to brighten their day!

Instructions:

1. Cut the 8 1/2" x 11" sheet into four pieces. Print as many as you need for your classroom. You can also use colored construction paper, printer paper or other materials available to you.
2. Write a message of hope to patients in transplant centers to lift their spirits and give them hope.
3. Once everyone is done writing a note to a patient, put it in the envelop and send it back to our office where we will then send it to a transplant center.

Address:
