

# Tour de Cure®

## It's Tour time - go HOG WILD!

Did you know that the first form of injectable insulin that was mass produced was from a pig pancreas?

Show your appreciation for the pig and its role in our fight to find a cure for diabetes!

Register for the 2025 Tour de Cure® North Carolina and raise \$150 or more online by January 31, 2025, and earn these exclusive American Diabetes Association® pig socks!
