

BRAIN ANEURYSM FOUNDATION OF CANADA

Raising Awareness. Ending Fear.™

GREAT NEWS:

In the first nine years of Running Against Ruptures we have raised over \$174,000, enabling us to contribute in the following amazing ways:

First research award of the Bob Wood Chair of Research, Running Against Ruptures in the amount of \$20,000 was granted to Dr. Jinglu Ai, MD, PhD of St. Michael's Hospital & the University of Toronto.

Second research award of the Bob Wood Chair of Research in the amount of \$10,000 was granted to Dr. Devin McBride, PhD of University of Texas Health Science Center.

Third research award of the Bob Wood Chair of Research, Running Against Ruptures in the amount of \$30,000 was granted to Dr. Louis-Philippe Bernier, Research Associate, University of British Columbia.

Further, funding from Running Against Ruptures helped fund a full-time graduate student in 2019 to assist with Dr. Boulton and Dr. Poepping's development of simulated model (both physical and computer models) of patient aneurysms at University Hospital in London, Ontario.

Funding from the 2021 Running Against Ruptures help directly fund in part, two fellowship-level trainees learning how to surgically clip and coil aneurysms also at University Hospital in London, Ontario.

First Running Against Ruptures Chair of Research in the amount of \$30,000.00 was granted to Dr. Buddy Omar of St. Michael's Hospital in Toronto.

The remainder of funds raised is used to raise awareness of brain aneurysms in Canada. We are still currently the only Canadian Run/Walk Fund Raising event for this cause making us so unique.

SOCIALS:

Like and Follow us on Facebook @RARCanada and Instagram and you will be sure to get news updates as well check out all our pictures posted of our events.

VOLUNTEERS WANTED:

We need your help to grow our event in the coming years.

Do you want to volunteer and be on our Committee?

Do you have a story you are willing to share?

Do you want to help sponsor this annual event in money or in kind?

We would love to hear from you. Contact our Event Coordinator at runningagainstruptures@gmail.com
