# Tips for Riding Smart and Safe

- The Texas MS 150 is a **RIDE, NOT A RACE!**
- Expect crowds at the Start, Route Merge Points, Rest Stops, Lunch Stops, and the Finish.
- Vehicle Traffic – The roads we use are not closed! Keep as much distance between you and vehicle traffic as possible. Use courtesy and etiquette when interacting with vehicles
- Keep to the right unless passing. **Pass on the left.** Call out “Passing on Left.”  
**DO NOT PASS ON THE RIGHT**
- Communicate verbally and using hand gestures (slowing, stopping, etc.).
- **DO NOT CROSS** the yellow center line.
- Ride with no more than two (2) riders abreast
- **Be Courteous, Be Patient and Ride Friendly**

# Rest Stops

Entering and Exiting a Rest Stop  
use caution and communicate to riders around you

## Entering:

- Stay to the right side of the lane when approaching a rest stop (if plan to stop)
- If you are not stopping at a rest stop, slow down then stay on the appropriate side of the lane to avoid those who are entering/exiting the rest stop
- Announce you are stopping
- Communicate with hand signals and callout “stopping”
- Move quickly and completely into the rest stop
- **Ride ALL THE WAY INTO THE REST STOP** before you stop and dismount your bike
- **DO NOT STOP IN THE ROADWAY!**

## Exiting:

- When exiting a rest stop do so from the down route side of the rest stop.
- Watch for oncoming cyclists or traffic, and slowly and safely merge back into the ride.
- Be ready to ride once you move out of the rest stop
- **DO NOT STAGE IN ROADWAY AND THEN PREPARE TO START!**
