The Fundraiser Portal serves to guide you through the fundraising process, whether you are a first-time fundraiser in an event or a longtime supporter. The Fundraiser Portal encourages you to take specific actions that will have a positive impact on The National Multiple Sclerosis Society's online fundraising efforts.

If you register online for events, create personal campaigns, or buy tickets, you are required to create an account during the registration or ticket purchase process. Donors have the option to create an account after donating, but this is not required. Once an account is created, you will have access to the Fundraiser Portal.

The Fundraiser Portal has many tools to motivate you to take more action, raise more money online, and spread the word for The National MS Society's mission to end MS. You can invite others to support your fundraising efforts, track your fundraising progress, update account information, and more.
