

Why Give to Shatterproof

Shatterproof believes no one should struggle with or die from substance use disorder (SUD), a preventable and treatable disease. We are the only national nonprofit organization working tirelessly to remove the systematic and societal barriers keeping our loved ones from accessing quality treatment and having a strong recovery.

Invest in addressing the biggest challenges for those struggling with addiction

Shatterproof focuses on changing the systems. We identify the most significant issues and use evidence-based work to address them. Whether changing federal or state policies, reducing addiction stigma, or using innovation to create a quality, reliable science-based treatment system, Shatterproof is creating the change required to reverse the addiction crisis in the U.S.

Change Depends on You

Shatterproof is implementing evidence-based solutions that were previously sitting in medical journals. In just ten years, Shatterproof has brought to life many of the most life-saving aspects of that research. The actionable programming Shatterproof implements is made possible through charitable support from concerned donors like you.

Help Save a Life

More than 46 million people ages 12 and older struggle with SUD. Your investment helps ensure we reach as many as possible with trusted guidance and resources to help them navigate the complexities of SUD.

Why Invest Now?

Sadly, SUD is devastating our country at an increasing rate. Exacerbated by the pandemic and declining mental health, we now have a record number of people in our country struggling with SUD. Additionally, fentanyl is pervasive across all substance use and increasing the overdose rates in our country. We suffered an all-time high of more than 107,000 overdose deaths in 2021, with 2/3 of the increase from fentanyl. There were an additional 100,000 deaths from alcohol use disorder. While the impact of SUD is felt regardless of race, ethnicity, class, or socioeconomic status, the disease impacts communities of color more intensely. We cannot wait to effect this change. Eleven people die every hour from an overdose; we must do everything possible to stop this.

What will my Donation Do?

- ✱ Drive the implementation of the National Principles of Care, a standard of addiction care, by all addiction treatment facilities.
- ✱ Invest in expanding Shatterproof Treatment Atlas, a trusted guide to help patients and families receive care and support.
- ✱ Support grassroots efforts to compel state and federal legislators to enact SUD issues, laws, and policy reform.
- ✱ Link families, those struggling, and those in recovery together through community programming, advocacy, and action.
- ✱ Bring together individuals and communities to use their voices to end addiction stigma.
- ✱ Honor those we've lost and help friends and family grieve through the National Addiction Memorial.
- ✱ Provide trustworthy science-based information to prevent, treat, and recover from substance use disorder.
- ✱ Change hearts and minds about those who struggle with substance use disorder and help Americans understand that addiction is a chronic, treatable disease.
- ✱ Ensure that opioid settlement funds are being used judiciously in ways that will save more lives.
