

## Facebook Fundraisers for Your Fundraisers

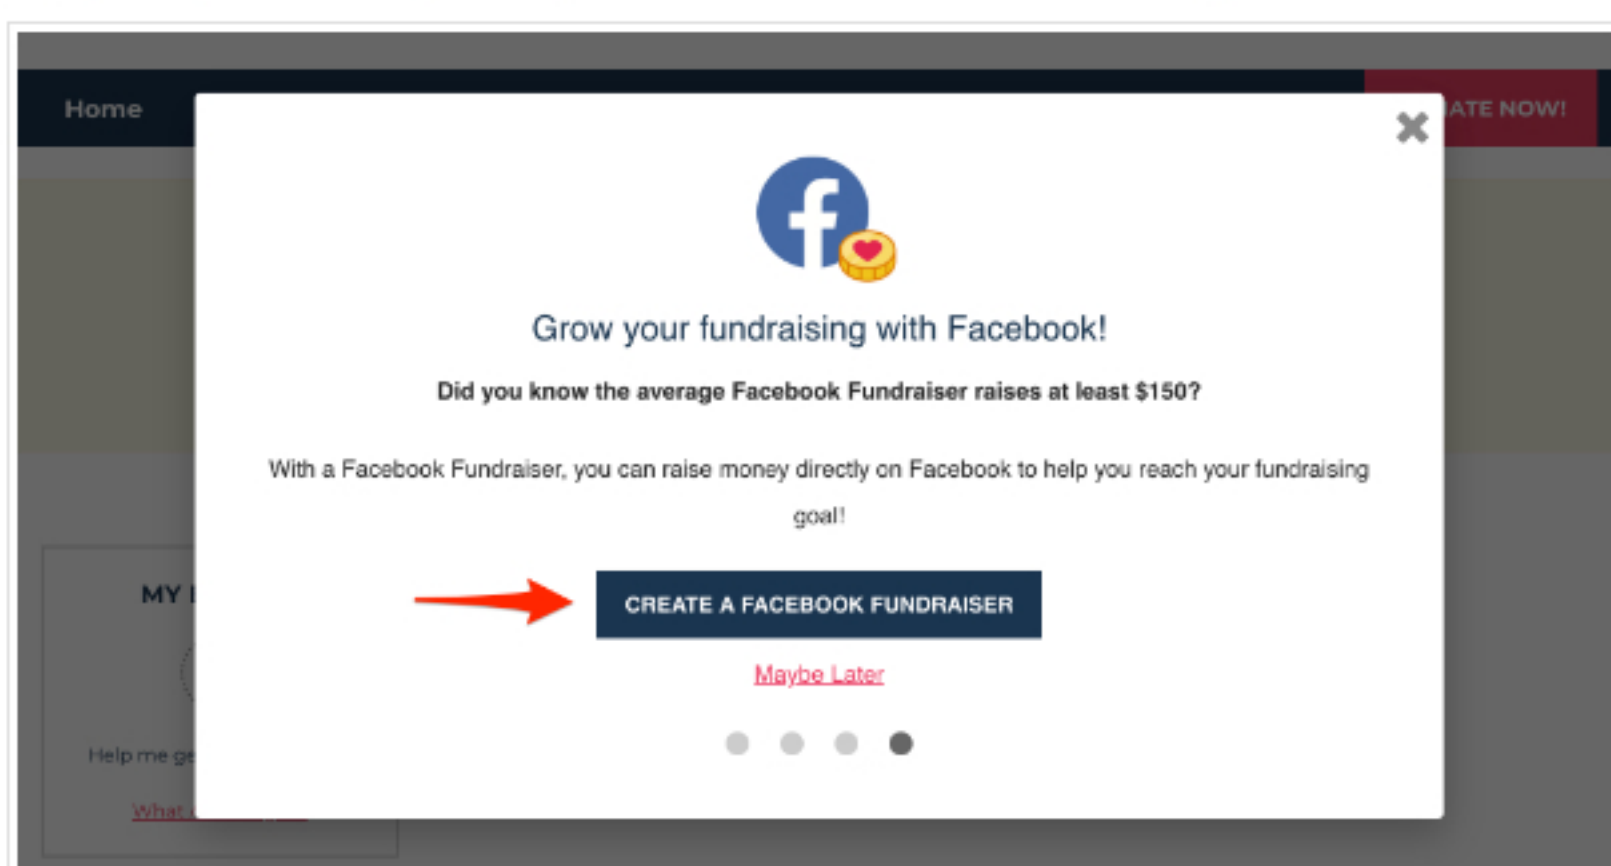

### Overview

Your fundraisers have the option of setting up a Facebook Fundraiser from DonorDrive after they register or create a personal campaign.

- [Viewing Facebook Fundraiser Progress in DonorDrive](#)
- [Viewing Facebook Donations in DonorDrive](#)
- [Ending a Facebook Fundraiser on DonorDrive](#)

### Creating a Facebook Fundraiser in DonorDrive

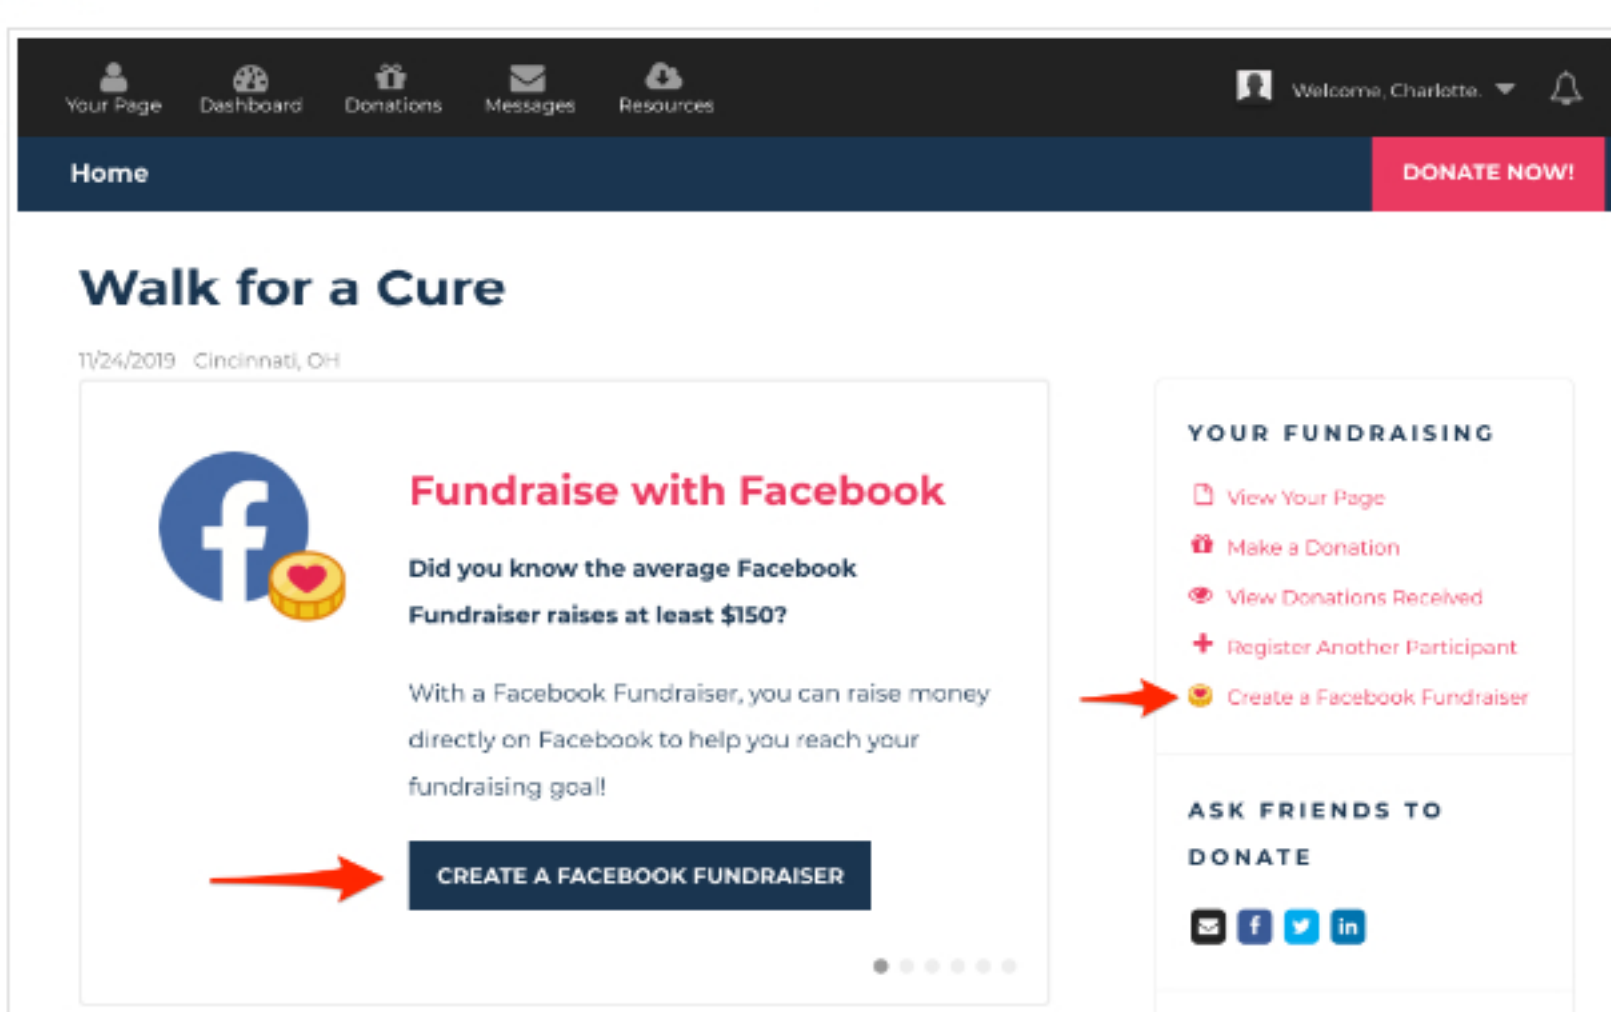

After fundraisers register or create a page, they have the opportunity to create a Facebook Fundraiser during Fundraiser Coach:

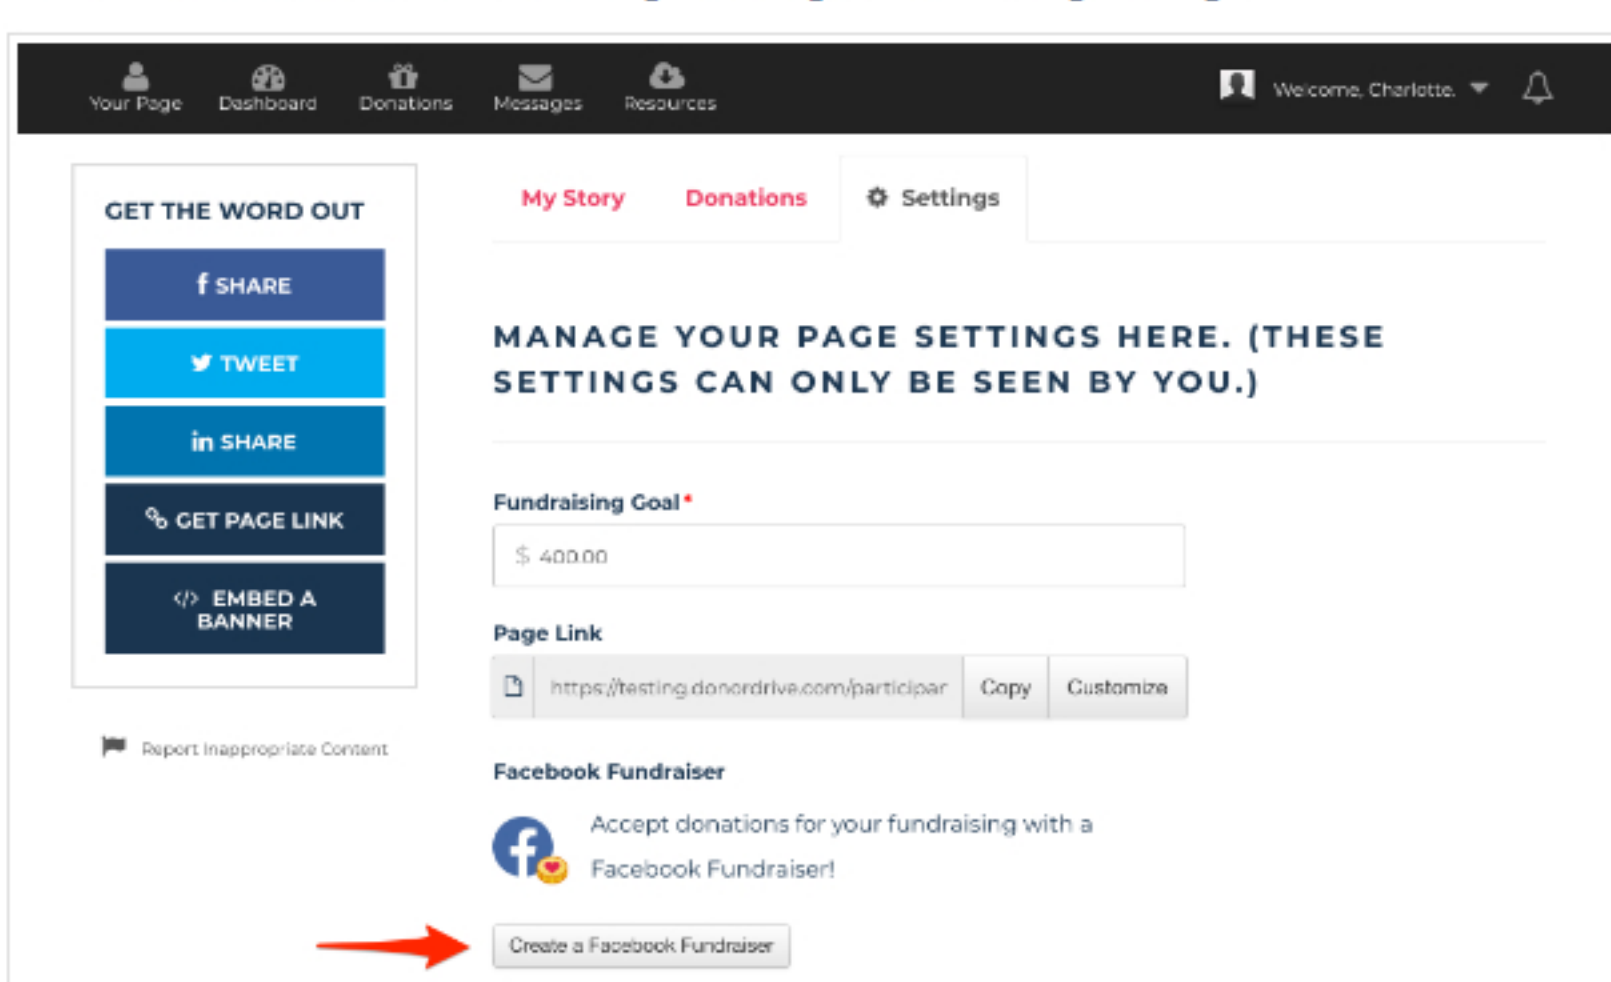

After creating a Facebook Fundraiser, they can view their Facebook Fundraiser or move on to the next step and share both their DonorDrive fundraising page and their Facebook Fundraiser.

If a participant wishes to create a Facebook Fundraiser later, they can do so in their Fundraiser Portal.

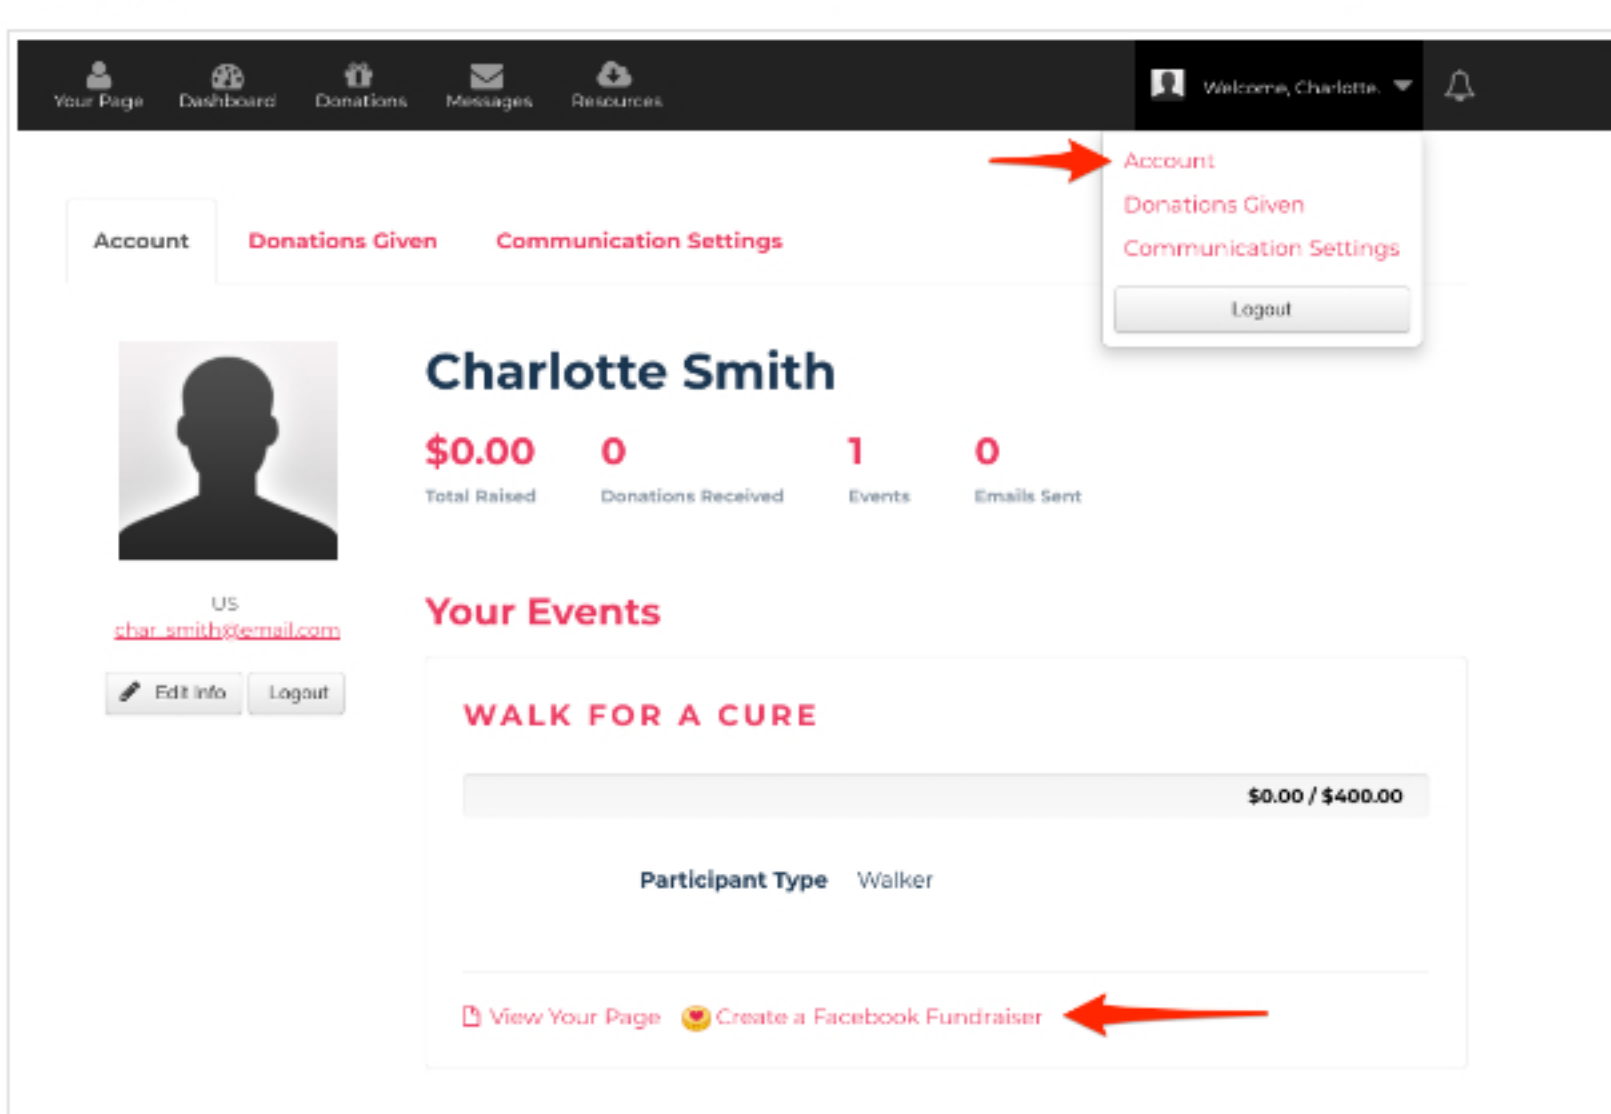

- From their Dashboard by logging in to their DonorDrive account and selecting **Dashboard**:

- From their page by logging into their DonorDrive account, selecting **Your Page**, and selecting **Settings**:

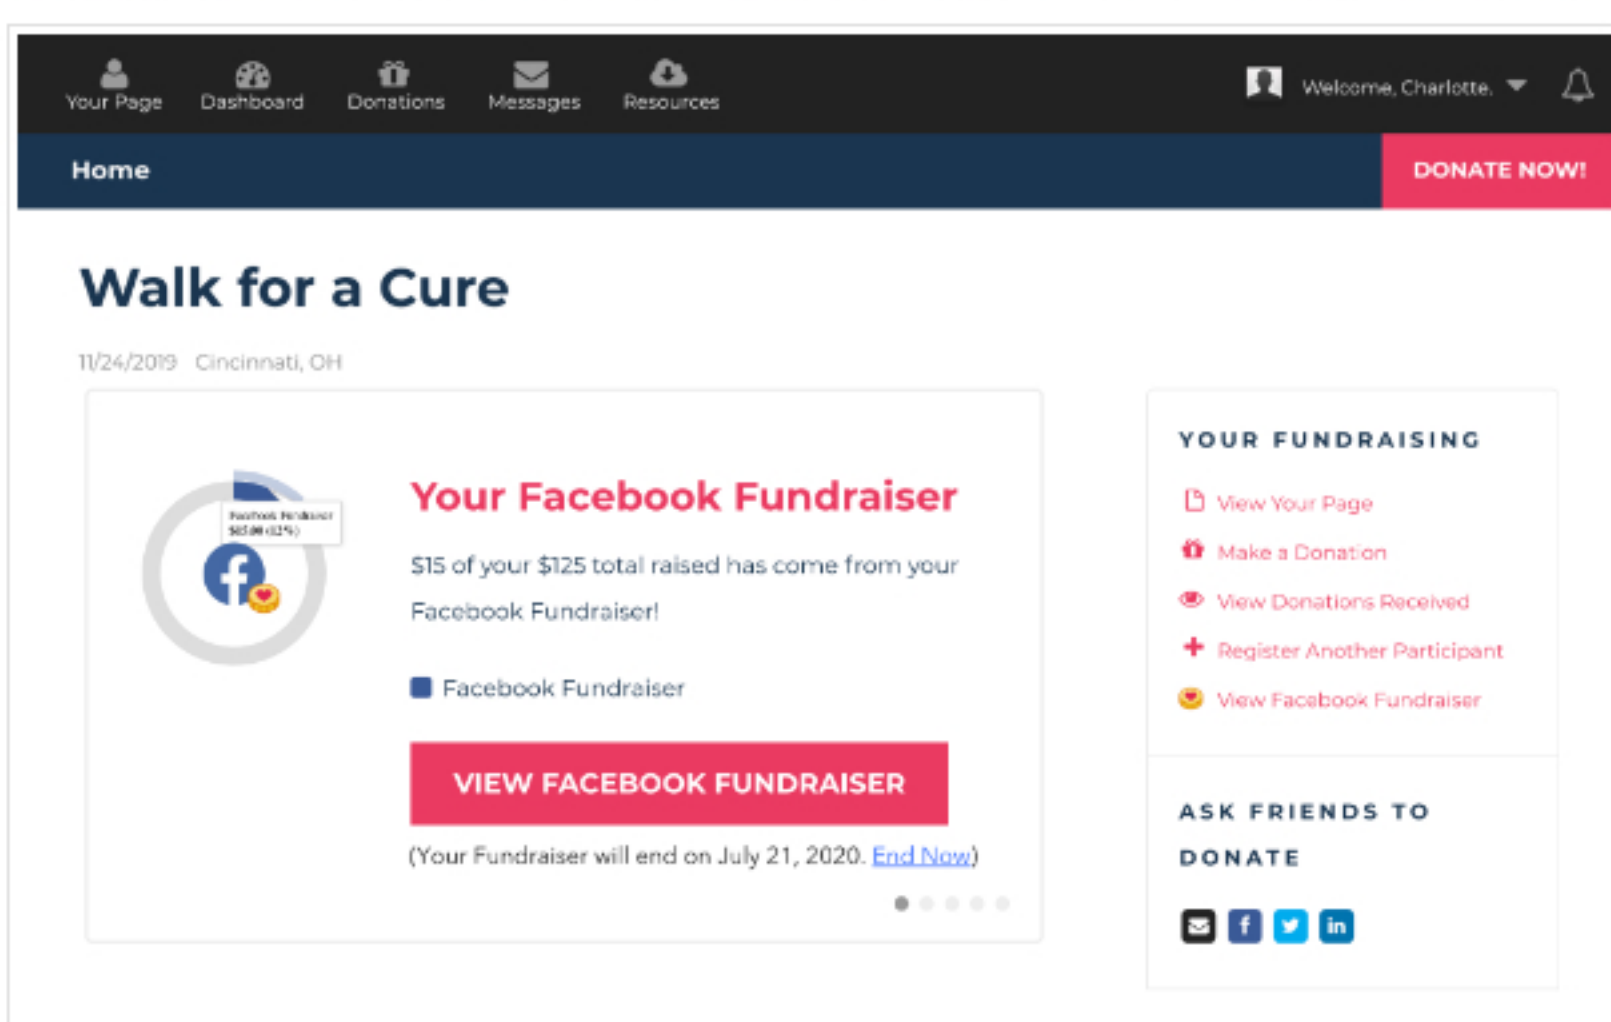

- From their Account settings by logging into their DonorDrive account, hovering over their name, and selecting **Account**:

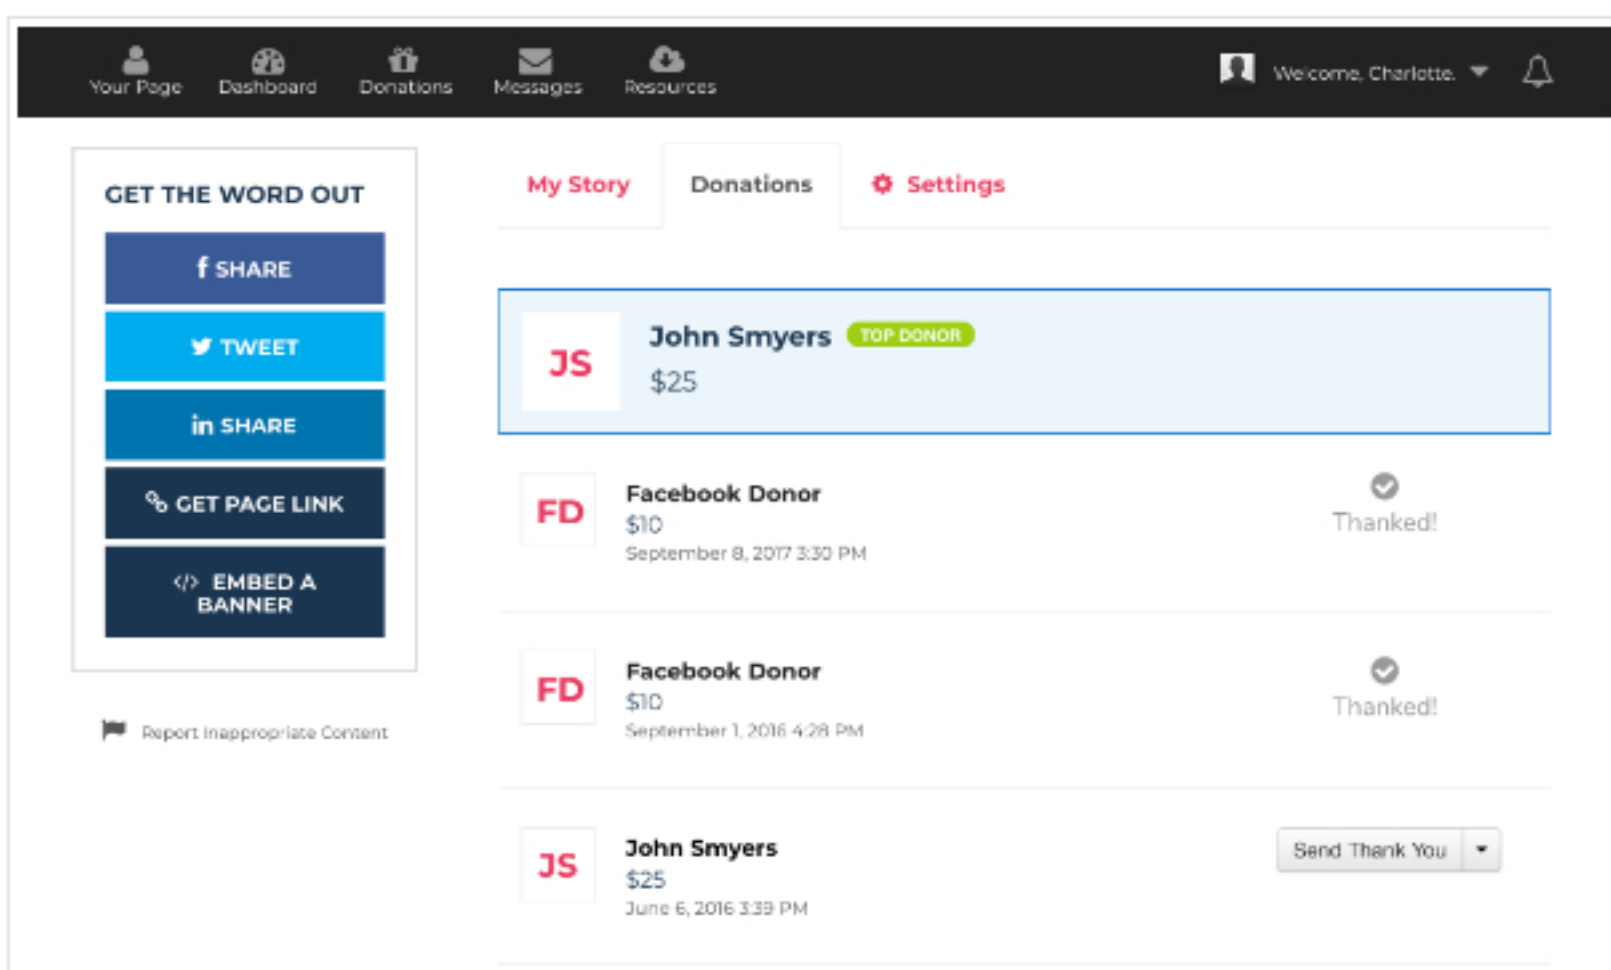

### Viewing Facebook Fundraiser Progress in DonorDrive

For participants and personal campaign sponsors that create a Facebook Fundraiser, they can track how much they are raising from Facebook on their Dashboard:

### Viewing Facebook Donations in DonorDrive

When a participant or personal campaign creator receives a donation to their Facebook Fundraiser on DonorDrive, they will immediately see those donations synced into DonorDrive. The donations will be listed on the participant or personal campaign creator's donation list:

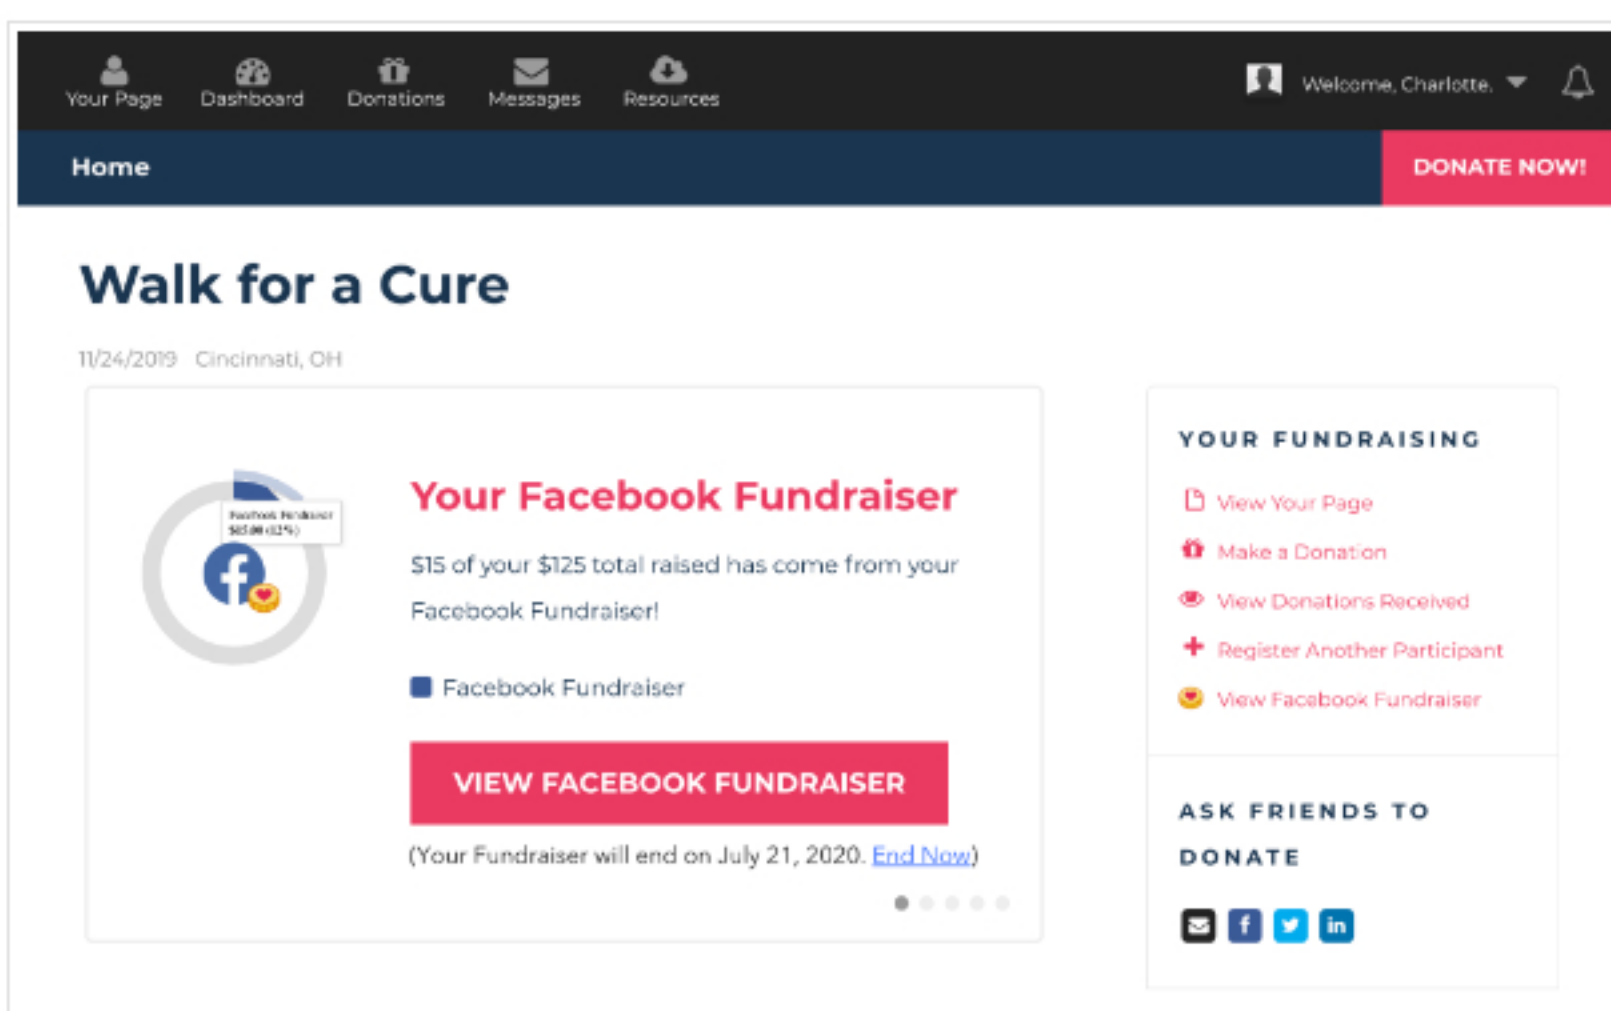

#### ⚠ Thanking Facebook Donors

Participants and personal campaign creators can thank their Facebook Donors by commenting on their Facebook Fundraiser or privately messaging their donor. After they thank a donor on Facebook, they will have the option to mark that donor as **Thanked** in DonorDrive.

You can create notifications when fundraisers receive a donation on Facebook so participants and personal campaign creators know the best way to thank a Facebook donor.

### Ending a Facebook Fundraiser

Participants and personal campaign creators can end their Facebook Fundraiser directly from DonorDrive from their Dashboard:

⚠ Ending a Facebook Fundraiser directly on Facebook will not end it in DonorDrive. If a participant or personal campaign creator has ended their Facebook Fundraiser on Facebook, they will also need to end it through their DonorDrive Fundraiser Portal.
